

B-facing composite Alu / Glass cloth

B-facing composite Alu / Glass cloth

B facing: also called Alu – Glass cloth laminate is an alu-coated glass fabric for high requests in tensile strength, water vapour permeability and fire-class. It can be used both ways with Aluminium side outside (B-Al) or Glass cloth outside (B-Gl).

Marine approval

Certificated for marine applications (Low Flame Spread according to IMO).

Water resistance

Robust vapour barrier – water tight.

Mechanical resistance

Strong mechanical protection of the wool. Resistant to tearing.

Easy handling

Rolls in handable delivery form that can be carried by one person (≤ 20 kg). Can be easily cleaned by wiping or washing.
